IAEI NEC 2017 Code Changes Seminar

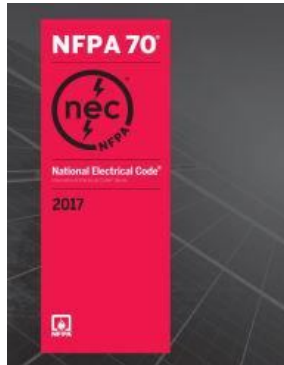

Join us and learn.

Learn the key code changes that are in the 2017 National Electrical Code.

Important Notice: 8 Hours of Code Change Credit: Approved by the States of Oregon and Washington for electrical license renewal.

Both days are the same 8-hour IAEI 2017 Analysis presentation. Attendance either day earns 8 hours Code Change license credit in Oregon and Washington. Attending both days will earn 16 hours Code Change license credit for Oregon supervisors. Washington will not recognize license credit for a repeat class.

This seminar is a must for those who will use the 2017 NEC as it becomes adopted and enforceable.

Instructors:

Jim Imlah, CMP-2

Assisted by:

Chuck Mello, CMP-5 and

International Instructor

Dave Hill – Intertek and IAEI

Mike Stone, CMP-1, NEMA

Times:

8:00 AM - 12 noon

- Coffee and pastries will be provided for morning break.

12 PM – 1 PM

- Lunch break (provided)

1 PM – 5 PM

- Coffee and snack will be provided for and afternoon break.

Seminar Registration and Costs:

	1 Day	2 Days
IAEI Member	\$125.00	\$230.00
Non-member*	\$155.00	\$290.00
Apprentices – bring certificate	\$50.00	\$100.00

* If membership application is completed before or at seminar, non-member credit of \$30 for one day and \$60.00 for two day will be applied to membership cost. Balance will be due from attendee at or before the meeting.

Sign up online at:

www.iaei-oregon.org

Walk-ins are welcome, pay at the door or register online at: www.iaei-oregon.org.

Upcoming Events:

2017 Class Schedule will be announced soon. Stay tuned for 2017 NEC Code Update classes To be scheduled once the Oregon Electrical Specialty Code has been approved.

Who Should Attend?

- ❖ Electrical professionals concerned with protecting lives and property through compliance and enforcement of the NEC®.

Inspectors (A level and combination)

Electricians with any license

Contractors

Engineers

Manufacturers

Testing Laboratory staff

Home Inspectors

- ❖ As a qualified electrical professional, people rely on you to install and inspect electrical installations that affect their daily lives – such as their homes, workplaces, and schools.

- ❖ This is the one venue that all parties in the electrical industry can come together, learn, discuss, ask questions, and get consensus answers in an open forum.

About IAEI

IAEI is dedicated to continuously meeting the seven objectives:

- To formulate standards for safe installation and use of electrical materials, devices, and appliances.
- To promote uniform understanding and application of the National Electrical Code®, other codes, and any other adopted electrical codes in other countries.
- To promote uniform administrative ordinances and inspection methods.
- To collect and disseminate information relative to the safe use of electricity.
- To represent electrical inspectors in the electrical industry, nationally and internationally.
- To cooperate with national and international organizations in the further development of the electrical industry.
- To promote cooperation among inspectors, inspection departments of city, county, state, at national and international levels, the electrical industry and the public.

Upcoming Events:

The Oregon Electrical Specialty Code (OESC) 4-hour class will be offered as soon as the Oregon Electrical Board completes the OESC adoption and permits courses to be submitted

The Washington Administrative Code (WAC) rules 4-hour class will be scheduled as soon as the Washington Electrical Board and Electrical Department complete the adoption process and permit course to be submitted.

Tentative future locations:

- Medford
- Lincoln City
- Bend
- Salem
- Portland

Emails are sent out advising class locations and dates. To be included on our email announcements, please send your name and email address to: **Oregon.iaei@gmail.com**.
