## Who Should Attend?

- Electrical professionals concerned with protecting lives and property through compliance and enforcement of the NEC.

Inspectors (A level and combination)

Electricians with any license

Contractors

Engineers

Manufacturers

Testing Laboratory staff

Home Inspectors

- As a qualified electrical professional, people rely on you to install and inspect electrical installations that affect their daily lives – such as their homes, workplaces, and schools.
- This is the one venue that all parties in the electrical industry can come together, learn, discuss, ask questions, and get consensus answers in an open forum.

## About IAEI

IAEI is dedicated to continuously meeting seven objectives:

- To formulate standards for safe installation and use of electrical materials, devices, and appliances.
- To promote uniform understanding and application of the National Electrical Code, other codes, and any other adopted electrical codes in other countries.
- To promote uniform administrative ordinances and inspection methods.
- To collect and disseminate information relative to the safe use of electricity.
- To represent electrical inspectors in the electrical industry, nationally and internationally.
- To cooperate with national and international organizations in the further development of the electrical industry.
- To promote cooperation among inspectors, inspection departments of city, county, state, at national and international levels, the electrical industry and the public.

## Upcoming Events:

### Clackamas Community College

Oregon City, OR

8-hour 2017 NEC Changes, 4-hour Washington WAC and RCW, and 4-hour Oregon Rule and Law
